

National Network of Physiotherapy Treatment

CRYSTAL PALACE
PHYSIO GROUP

.....
Making People Better

Our Service aims to reduce your Organisation's associated costs of Musculoskeletal (MSK) sickness absence, through a National Network of Physiotherapy Treatment that supports and assists your Employee's back to work, as quickly and safely as possible.

Our Service

- Provides fast and easy access to our network of over 2000 Physiotherapists so that they can assess, diagnosis and treat your Employee's MSK conditions.
- We utilise an evidence-based bio psychosocial approach, to minimise the impact of an MSK condition on your Organisation. We identify any barriers to return to work, and implements return to work strategies/plans.
- All clinics work under our strict clinical governance program and are subject to our regular operational and clinical audits.

Benefits for you

- Easy and fast access to early intervention, from a highly trained team of Occupational Physiotherapists that are HCPC (Health & Care Professions Council) and CSP (Chartered Society of Physiotherapy) registered, guaranteeing you are in safe hands.
- Cost effective solutions that significantly reduce your MSK-related sickness absence, with measured outcome, typically being able to demonstrate a Return on Investment of between £3- £8 for every £1 spent.
- A service that works to strict Service Level Agreements.
- You receive comprehensive Management Information Reports of measured activity and timelines.
- You'll receive a flexible customer-focussed approach to service delivery in order to meet your organisation's needs.
