

# Occupational Physiotherapy (on site)

CRYSTAL PALACE  
PHYSIO GROUP

.....  
Making People Better

## Our Service

- Provides you with fast on-site access to assessment, diagnosis and treatment of Employee's MSK conditions.
- We utilise an evidence-based bio psychosocial approach, to minimise the impact of an MSK condition on your Organisation. We identify any barriers to return to work, and implement return to work strategies/plans.
- Provides regular communication/advice and MSK Education sessions to Line Managers, HR and other Occupational Health team members.

## Benefits for you

- Cost effective solutions that significantly reduce your MSK-related sickness absence, with measured outcomes.
- Easy and fast access to early intervention, from a highly trained team of Occupational Physiotherapists that are HCPC (Health & Care Professions Council) and CSP (Chartered Society of Physiotherapy) registered, guaranteeing you are in safe hands.
- Provides you with a service that your Employees will greatly appreciate, that is demonstrated through excellent Employee satisfaction results, as well as increased Employee productivity by helping them stay and/or return to work, in a healthier state.
- National U.K. wide coverage.
- Comprehensive Management Information Reports, giving you extensive data on the health of your workforce and cost analysis of your service.
